**A Report for Guest Lecture on The Positive and negative Consequences of Social Media
Conducted on 17-11-2021**

Resource Person: Mrs.V.K.L.Gayatri, Senior Special Correspondent, Deccan Chronicle.

Venue and Time: Seminar Hall, 2PM

No of participants: 202

The Guest Lecture on the positive and negative consequences of social media is conducted for second year CSE students. Totally 202 students are actively participated in this interactive session .She explained that the ability to access social media gives educators the chance to teach students about good digital citizenship and how to use the Internet for productivity. At the same time, social media can also have a negative impact on younger generations, which is to say that it can be used to spread false information. The privacy concerns associated with sharing personal information online are one of the largest barriers to social media use in education. Many inappropriate pieces of information were posted in some of the scenarios, which could have steered the students in the incorrect direction. Students no longer have the ability to participate in face-to-face conversation because of social media.

A Report for Seminar on "awareness of cybercrime" Conducted on 19-12-2018

Resource Person: Ms.S.Manjusha, Senior Manager, Indus land Bank

No.of Participants: 140

Venue & Time: Seminar Hall. 10 AM

To educate students and staff about the different issues related to cybercrime and hacking, the Department of CSE organised a seminar on "Awareness on Cyber Crimes." Senior Manager Ms. S. Manjusha gave the lecture. The criminal action known as "cybercrime" involves the use of a computer as a source, tool, or target. She explored many cybercrime theories, such as "The Broken Window Theory," which contends that once one criminal enters society, the entire society might become tainted as a result of their negligence. "Criminality will escalate if tiny petty crime is not addressed." Cybercrimes come in many forms, including hacking, denial of service attacks, virus spread, piracy, phishing, spoofing, defamation, IRC crimes, etc . A thank-you note and the completion of the feedback forms marked the end of the session. The students gained an in-depth understanding regarding cybercrime and its awareness.
